

CSCI 457 Assignment 3 – Biography Viewer

Choose one of your favorite games, and implement an app that shows the biography of each character of the game.

Requirements:

- Your app should show a list of characters in the main view using a table view.
- A small icon and some brief information of each character should be displayed in the table view.
- The user can scroll up and down to see the full list.
- The user can swipe right to reveal two buttons to favorite a character or unfavorite a character.
- A checkmark is displayed for each favorite character, and the checkmark is removed if the character is unfavorited.
- The user can touch a character to open a detail view to see the character's large portrait and full biography.
- Do not use parallel arrays. Use a class for the characters.

The screenshots of a sample app are attached in the figures below.
